Project Benefits

- Enhances the Bolivar Peninsula economy
- Improves the visitor experience
- Raises awareness of Bolivar's unique natural resources
- Increases the region's significance as a destination for birding, swimming, boating, and exploration

The Bolivar Peninsula Nature Trail is a nature-based, conservation, education, and economic development initiative that will connect and improve 13 world-class nature and recreation sites on the Bolivar Peninsula.

Securing \$4.5 million in RESTORE Act funding will help develop:

- Miles of new or improved trails and boardwalks
- New observation towers and platforms at key sites
- A conservation and information center for visitors
- Park improvements & improved bay access for watercraft
- Wayfinding and new interpretive signage
- Creation of two new rookery islands
- And much more!
