

## Betsy Black Residence

**5115 Mimosa Dr. Bellaire TX  
7401**

In my garden I have E. Gamma grass, Indian grass, gulf coast muhly, rattlesnake master, button bush, beauty berry, coral berry, river birch, lantana and a lot more native plants.

# Bird-friendly Gardening Day

# 2025

My interest in gardening, native plants and birdwatching started when I was a child. My mom is a gardener and my dad was a bird watcher. I started my own garden when I was in my 20's and my interest in native plants has grown.

I started this garden in 2015 and it started taking off the next year. It is always evolving because I add new plants and also like to redesign it occasionally.
