LIGHTS OUT, TEXAS!

Spring
Mar 1 - Jun 15

Fall
Aug 15 - Nov 30

BIRDS CAN BECOME DISORIENTED BY LIGHTS AT NIGHT, BUT YOU CAN HELP

- Turn off non-essential lights inside and outside between 11pm-6am
- Turn off landscape lights in trees
- If you need to prioritize, turn off lights during peak migration. Check bit.ly/Lights_Out_Texas for dates
- For essential lighting
  - Use dark sky friendly light fixtures or shields
  - Set timer or motion sensors
  - Close blinds to keep light inside
- Share your actions online by posting with #LightsOutTexas

Did you know 80% of North American migratory birds travel at night?

This initiative would not be possible without statewide partners.
